

COMPASS SPORT CUP/TROPHY 2023 - ENTRY INFORMATION

Your club is invited to enter the 2023 CompassSport Cup. In 2023 there are events on 3 dates, the first being 22 January 2023, consequently entries need to be submitted by 30 November 2022. This allows for some chasing of late entrants and the forwarding of information to organising clubs by 7 December 2022.

Over 30 clubs replied to the questionnaire on rule changes. This precipitated further issues and a wide range of views, to such an extent that no changes will take place to the Rules until a further structured review takes place. The only issue agreed was that for 2023 the split point between Cup and Trophy will be 120, based on pre and post Covid BOF membership figures. There will be no changes to the number of scorers to encourage recruitment and participation. It is expected that clubs will enter their Association event. A second choice can be indicated so that if an event has restricted numbers some balancing up of event entrants can take place.

Please enter by email. Complete the below and paste into an email, NOT by sending this form back.

To calculate Cup or Trophy - Methodology

Determine the number of **BOF** members in your club on 30 September 2022, (total people not units) then deduct all aged 1 to 11 and 86 or greater to give your club count. If this is 120 or less, then you are a Trophy Club. This is the members first claim open club membership.
